<http://www.gpsakoli.ac.in/welcome/icsvtsd>

Government Polytechnic Sakoli is one of the prominent institutions in Bhandara district of Maharashtra State and is imparting technical education since 1983. We aim to contribute to the weaker sections of the society through quality technical education. The development of society through many innovative technologies and implementation policies is one of the key and thrust areas. Their propagation in the tribal and rural areas through better interaction and efforts will add value and prove to be beneficial for the development.

Aims & Objectives of the Conference

The main objective of the conference is to disseminate awareness of latest advances and innovations in technology for rural development. Due to recent pandemic situation throughout the world, there is a global interest to minimize the gap between urban and rural communities and improve upon the various important issues viz. environmental protection, rural development,

agriculture etc. maintaining balance with industrialization. This will be possible by developing “Smart villages” with sustainable development. In this direction, the conference will provide a light on these genuine issues, their possible solutions and better interaction with the society. It will provide a common platform to various professionals, researchers, students and interested participants to share their thoughts on the theme.

About the Conference

The following topics are proposed for the conference. It is requested to contribute on any topic in your area of interest appropriate for the theme.

POLICIES AND GOVERNANCE

- Rural development policies
- Socio- Economic significance
- Private-Public-Partnership (PPP) for development
- Role of NGOs/organizations
- Rural education
- E-Governance

INNOVATIONS AND TECHNOLOGIES

- Appropriate technologies
- Science and technical applications
- Digital awareness, applications and solutions
- Smart villages and technologies
- Sustainable agriculture development
- Impact of agriculture innovations
- Sustainable Engineering
- Material Science
- Non-conventional Energy
- Innovative solutions and impact of technologies
- IoT & Big Data Analysis
- Agro machineries
- Applications of any engineering/science/management disciplines

INFRASTRUCTURE

- Land and Natural Resources Management
- Low cost & Energy Efficient Housing

- Integrated crop production and plant protection techniques
- Irrigation and Drainage
- Rural Water Supply
- Rural Transport
- Automated fertigation
- Healthcare, Sanitation and Hygiene

INDUSTRY INTERACTION & APPLICATIONS

- Development & Marketing of Rural/Tribal Products
- Rural employment
- Agro industries
- Food Technology
- Cottage and Small Scale industries
- Advances in animal husbandry management
- Eco-tourism
- Impact of industrial development
- Start-up business ideas

About the Institute

It is governed by Higher and Technical Education Department, administered by Directorate of Technical Education and affiliated to MSBTE, Mumbai. The institute is offering five diploma programmes viz. Civil Engineering, Mechanical Engineering, Electrical Engineering, Electronics & Telecommunication Engineering and Computer Technology with total intake of 300 students. Institute has highly qualified and experienced teaching faculty from premier institutes viz. IITs/NITs. It has a training and placement cell to provide information about the career opportunities and arranges various placement drives for students. It has a boy’s hostel and two girl’s hostels with capacity of 175 and 100 respectively. The campus is spread over the vast area of 19 acres of land surrounded by lush green tall trees.
